Jira Software Cloud Premium

Jira Software Premium helps you scale the way your organization works, offering an advanced toolkit for admins, better visibility across work in your instance, and a solid foundation on which to grow.

Automate tasks and processes to save time for your team and organization

With Jira Premium's new, no-code automation features you can build and edit automations across your entire business or a handful of Jira projects in a few clicks.

87% of Jira automation users say it makes it easier to scale Jira within their organizations

Build roadmaps that span multiple teams and Jira projects   COMING SOON

Advanced Roadmaps gives you an eagle eye view over all the work you're tracking in Jira Software. This powerful feature also helps you manage team capacity, track progress, and get ahead of dependencies and blockers across teams. Easily share your cross-team roadmap with stakeholders throughout your business.

" "Jira automation is indispensable. It saves my team a lot of time and building automations across all of our tools is simple and easy."

DAVID YU, JIRA ADMIN, LYFT

Jira Software Cloud Premium

99% uptime SLA
Around the clock 99.9% uptime SLA, financially backed with service level credits so you never have to worry about downtime.

Unlimited storage
Unlimited storage removes limits, letting your team upload attachments and files of any size while collaborating worry-free.

24/7 Premium Support
Get 24/7 support with one hour response times for critical issues with the best on-hand to help you take care of challenges as they arise.

Project archiving   COMING SOON
Reduce clutter in your instance and ensure everything your team can access in Jira Software is relevant by archiving projects and their underlying issues when they're no longer active.

IP Allowlisting   COMING SOON
Provide additional security safeguards to make sure only people from networks you trust can access your instance.

Sandbox environment   COMING SOON
Ensure changes to your instance work the way you expect before putting them into production for your team.

Custom domains   COMING SOON
Make it easy and intuitive for your users to find their Jira Software work by customizing your Atlassian site with your company's domain.

Admin insights   COMING SOON
Understand your product usage and get visibility into security, access, and activity over time.
