PRESENTED BY

MIKE SAMPLE
DIRECTOR OF ENGINEERING, GLIFFY

Visit the frontier of diagramming with visuals that enliven your pages and drive viewership. Learn how to infuse diagrams with interactive content by anticipating user interaction while working through design. In this talk, we'll provide a tour of dynamic, best-in-class diagrams that convey information tailored to the needs of different users—then explain how you can make your own.

Join Mike Sample, Director of Engineering at Gliffy, to change the way you think about diagramming.
