Unlock Unlimited Jira Reporting Flexibility! Try eazyBI for Jira Free for 30 Days.

- Copy any report or dashboard as a template to your own account via [report definitions](#).
- Explore other demo reports for [Jira Service Management](#), [SQL](#), [Google Sheets](#), or [Git Log](#)
- Start simple, dive deep, explore, and discover.

SCREENCAST VIDEO

▼ Sprints and story points overview for project

Represents the main key metrics of the project sprints: the number of complete sprints, the average velocity in last 5 closed sprints, currently unresolved Story points and how many sprints would be needed to complete them based on the velocity, as well as the end date of the current sprint. **Sprint Velocity overview** is available with version 6.2. shows details for **Story Points velocity 5 Sprints**

Active Sprint end date

Sep 20 2021

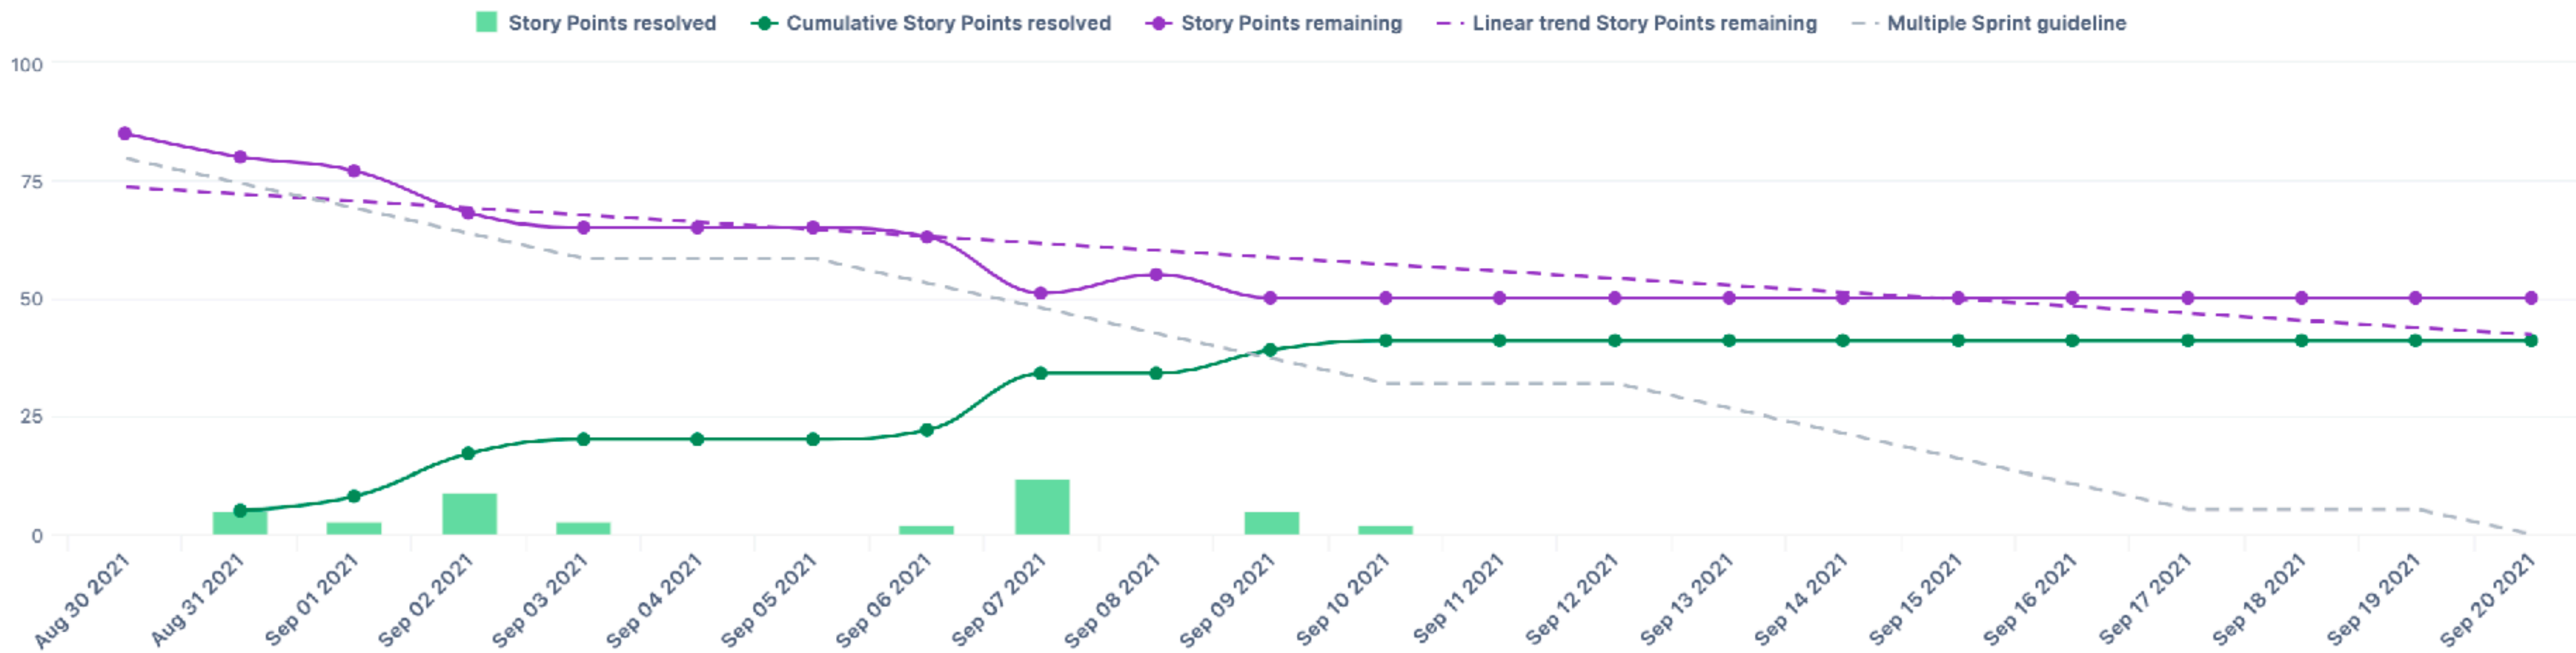

▼ Active (multiple) sprints story points burn-down

Tracks Story Points resolution progress in multiple sprints, mostly useful if the work is realized in several parallel sprints. The report covers a time period based on all included sprint start and end dates. For a **Multiple Sprint guideline**, the total number of committed story points is used, regardless of when each particular sprint was started.
