Building a business case for cloud: a retro with Splunk

Ben Center, Business Value Consultant, Atlassian
Greg Warner, Sr. Manager Collaboration Tools, Splunk

THEN

Managing infrastructure

Version upgrades

Security monitoring

Waiting for features

Status Quo

NOW

Value-Add Activities

Constant releases

Secure Cloud Platform

Cloud-first innovation

New use cases + possibilities

“

Right. But what do I actually GET from moving to Cloud?

YOU, PROBABLY

“

Right. But what does *the business* GET from moving to Cloud?

YOU, HOPEFULLY AFTER THIS

FEATURES

Pre-Migration: Building a business case

Post-Migration: Seeing what's possible

Examples of Value

Cost of Value > Cost of Doing Nothing

Built-In Roadmapping = $500k in savings

Security Vulnerabilities
