## Sea of Jira

### Email This Issue

★★★★★ 6.3k+ installs

**Improve Service Management** with a high quality email channel inside Jira. Make your customers life a lot easier through **email communication**. Put your service team on steroids and **maximize the efficiency** by not having to leave Jira to receive and respond to emails. **Keep your stakeholders up-to-date** of changes without flooding them with unnecessary, redundant information.

CLOUD FORTIFIED

### Advanced Children Display for Confluence

★★★★★ 650+ installs

**Structure** hurricane of **content** and focus only on what is relevant to **YOU**. **Never lose important updates** made to pages any more. **Feel safe** and **control** what's happening without getting overwhelmed by notifications. **Save abundant amount of time** searching for crucial details like attachments, change history, issue links. All of these are at hand in a central place for your whole space.

CLOUD FORTIFIED

### Glass Project Documentation for Jira

★★★★★ 160+ installs

**Make your Jira project configuration transparent** by automating tedious and costly manual documentation processes while keeping your documentation **always up to date**. With Glass, your Jira users, administrators and auditors can easily examine project information. **Create snapshots and compare configurations** to quickly identify and track changes in your project versions.

CLOUD FORTIFIED

### Content Exporter (Word, PDF, HTML)

★★★★★ 1.4k+ installs

Forget the hassle of exporting pages one-by-one. **Export the whole tree at once** or just select the pages you need. No more heartless, ugly documents. Add your own style, corporate look-and-feel design, headers and footers and a lot more to create **professional PDF or Word documents** that are easy to read and that your colleagues or customers will love.
