The space between

Netflix's cloud migration story

▲ ATlassian

team'23

The background of the image is a sunset over a city skyline. The sky is filled with clouds, transitioning from dark grey and blue at the top to bright orange and red near the horizon. The city skyline is visible as a dark silhouette at the bottom. On the right side of the image, there is a vertical red overlay with diagonal lines. The date 'Monday, July 18, 2022' is written in a large, white, sans-serif font across the center of the image.

Monday, July 18, 2022

A photograph of the Netflix headquarters building in Los Angeles at sunset. The building is a modern, multi-story structure with a light-colored facade and large windows. The Netflix logo is prominently displayed in large, red, three-dimensional letters on the side of the building. The sky is a mix of orange, pink, and blue, indicating the time is dusk. In the background, other city buildings and a busy street with traffic are visible.

Confluence Cloud Day 1

	Action	Details	Date	Start Time	End Time	Duration (minutes)	Owner	Status	Notes
								TO DO IN PROGRESS	
1	Pre-Migration								
2	Update app link dependencies for Conf cloud to Jira DC	Applinks configured for netflix.atlassian.net	Jun 30, 2022	-	-	-	@Ed Bukoski	COMPLETE	
3	Check Anonymous Access in cloud destination disabled	https://support.atlassian.com/confluence-cloud/docs/manage-global-permissions/	Jun 30, 2022	-	-	-	@Ed Bukoski	COMPLETE	Confirmed Anonymous access is disabled.
4	Create MOVE ticket for Production Migration	frozen for now, simply reply to open when needed	Jun 30, 2022	1:00pm PDT		0:10	@Cassidy Leal	COMPLETE	
5	Clone to Staging Server from Production Server	Retain CMA takes in data base > List CMA takes	Jul 10, 2022			0:30	@Ed Bukoski	COMPLETE	Confirmed staging is ready as of July 10, 11:50pm
6	Ensure user accounts (all emails valid and unique) on staging		Jul 11, 2022	6am PDT		0:05	@Jesse Wisener	COMPLETE	
7	turn off personal spaces created automatically on cloud destination		Jul 11, 2022				@Ed Bukoski @Jesse Wisener	COMPLETE	Defaulted this to "on", the more the merrier I always say! Everyone should Confluence it up! https://support.atlassian.com/confluence-cloud/docs/manage-global-permissions/ https://community.atlassian.com/t5/Confluence-Cloud-articles/We-re-giving-you-a-personal-space-automatically/ta-p/1848650
8	Confirm dedicated RDS for destination site		Jul 11, 2022				@Fábio W. [Atlassian]	COMPLETE	
9	Install apps in Cloud (check for updates)		Jul 11, 2022	6:05am PDT		1:00	@Jesse Wisener	COMPLETE	
10	Update/prepare server apps for migration	Apps to prepare: • HTML for Confluence • Composition	Jul 11, 2022	7:05am PDT		1:00	@Jesse Wisener @Ed Bukoski	COMPLETE	
11	Resolve any remaining issues in Confluence on-prem	• Anonymous access	Jul 11, 2022	8:05am PDT		0:30		COMPLETE	
12	Confirm Feature Flags and/or Dark Features	• migration-assistant.app-migration.dev-mode • migration-assistant.app-migration.feature • migration-assistant.disable-app-	Jul 11, 2022	8:35am PDT		0:05	@Jesse Wisener	COMPLETE	Completed for Attachment Migration. Will need to be redone for space

2 weeks before

Migration								
20	Send Production Comms	link to comms plan	Jul 15, 2022	5:00pm PDT		0:15	@Ed Bukoski	COMPLETE
	- Email notification - Slack notification							
21	Update site-wide banner on source	'cloud migration is in progress, anything prod	Jul 15, 2022	5:00pm PDT		0:05	@Ed Bukoski	COMPLETE
22	Clone Staging DC from Production DC	tain CCMA tables in database	Jul 15, 2022	5:00pm PDT		0:30	@Ed Bukoski	COMPLETE
23	Prepare apps for migration	to prepare: HTML for Conference Composition	Jul 15, 2022	5:30pm PDT		0:30	@Jesse Wisener	COMPLETE
24	Review access groups on destination site		Jul 15, 2022	6:00pm PDT		0:05	@Jesse Wisener @Ed Bukoski	COMPLETE
25	Migrate Spaces to destination	Run CCMA migration of spaces	Jul 15, 2022	6:00pm PDT		17:16	@Jesse Wisener	COMPLETE
26	Update Alluvium	- Load Alluvium with latest page ID and short URL mappings - Open Alluvium security group to internet traffic - Update Alluvium target to netflix.atlassian.net	Jul 15, 2022	9:00pm PDT		0:60	@Ed Bukoski	COMPLETE
								Moved this step here, it used to be a pre-migration step. Moving it later means our page IDs will be fully up to date.
27	App mitigation	Team Calendars ✓ Disable TC notifications in Cloud @Fábio W. [Atlassian] ✓ Generate Calendar csv @Jesse Wisener ✓ Run migration script @Jesse Wisener ✓ Generate SQL script for Atlassian @Jesse Wisener ✓ SQL script and enable TC notifications @Fábio W. [Atlassian] Smart Terms Manually export/import terms from ✓ TOKB @Jesse Wisener ✓ POKB @Jesse Wisener ✓ NAS @Jesse Wisener	Jul 16, 2022	8:00am PDT	10:00am PDT	2:00	@Fábio W. [Atlassian]	COMPLETE
28	Complete the post-migration checks	- Raygun (30m) - Smoke test overall functionality (list of pages to inspect manually for macros) Ed to add page. (1h)	Jul 16, 2022	10:00am PDT	11:30am PDT	- Raygun 0:30 - Page list 1:00 1:30	@Ed Bukoski @Jesse Wisener	COMPLETE
29	Decision point: Go/No go	What are indicators to consider? Meeting Invite Sent! ✓	Jul 16, 2022	11:30am PDT		0:30 🍷		COMPLETE
								If this milestone is a no-go we would then start with the rollback steps.
30	Update Atlassian	https://support.atlassian.com/requests/MOVE-86885/ Reach out in MOVE ticket to share decision and let us know that you're ready for link	Jul 16, 2022	12:00pm PDT	-	0:05		COMPLETE

Friday 5 p.m.

Will I still be employed in 24 hours?

64,631 passed, 0 errors

N

A photograph of the Netflix headquarters building in Los Angeles at sunset. The building is a modern, multi-story structure with a light-colored facade and large windows. The Netflix logo is prominently displayed in large, red, three-dimensional letters on the side of the building. The sky is a mix of orange, pink, and blue, indicating the time is either dawn or dusk. In the background, the city of Los Angeles is visible, with various buildings and streets. A street with traffic is visible in the foreground, and a large 'HOLLYWOOD' sign is visible in the distance. The overall scene is a high-angle shot looking down at the building and the city below.

Rohan Dhruva 08:13

I just noticed that one of the links in my bookmarks is not working after the migration. Is that expected?

THE PHASES OF MIGRATION

Headwinds

THE PHASES OF MIGRATION

Headwinds

? JCMA vs. site import

Jira Method	Jira Site import	Jira Cloud Migration Assistant
Pros	+ Good for migrations to new cloud sites + Jira Service Desk will be migrated + Advanced Roadmaps (Portfolio) will be migrated + Can migrate all data (highest data resolution) at once	+ Can migrate in stages + Will not overwrite existing data in your cloud site + You can choose what projects you want to migrate + You can choose to migrate only users and groups + You can choose to migrate only users related to the projects you need to migrate + The app is installed in your server instance, and can help identify issues before you migrate + Guides you through the migration with an easy to use interface
Cons	- App data won't be migrated - The migration will overwrite any existing data in your cloud site (except users and groups) - Users may need to be imported separately if managed externally - You'll need to be on a supported self managed managed version - You can't choose what you do and don't want to migrate (for example, only select projects) - Because this method is "all or nothing" large amounts of data can result in longer downtimes	- App data won't be migrated - Jira Service Desk will not be migrated (use Jira Site Import or CSV import instead) - Advanced Roadmaps (Portfolio) will not be migrated - You'll need to be on a supported self-managed version - Specific entities (eg. custom fields, cross-project boards, dashboards, etc.) are not migrated - Need to allowlist specific IP addresses

Post-Incident Review on the Atlassian April 2022 outage

April 29, 2022

Executive summary

On Tuesday, April 5th, 2022, starting at 7:38 UTC, 775 Atlassian customers lost access to their Atlassian products. The outage spanned up to 14 days for a subset of these customers, with the first set of customers being restored on April 8th and all customer sites progressively restored by April 18th.

This was not a result of a cyberattack and there was no unauthorized access to customer data. Atlassian has a comprehensive [data management](#) program with published SLAs and a history of exceeding these SLAs.

Although this was a major incident, no customer lost more than five minutes of data. In addition, over 99.6% of our customers and users continued to use our cloud products without any disruption during the restoration activities.

i Throughout this document, we refer to those customers whose sites were deleted as part of this incident as “affected” or “impacted” customers. This PIR provides the exact details of the incident, outlines the steps we took to recover, and describes how we will prevent situations like this from happening in the future. We provide a high-level summary of the incident in this section, with further detail in the remainder of the document.

What happened?

In 2021, we completed the acquisition and integration of a standalone Atlassian app for Jira Service Management and Jira Software called “Insight – Asset Management”.

Space Tier List

Created by Ed Bukoski

Last updated: Jul 13, 2022 • 1 min read • 5 people viewed

Confluence spaces grouped into Tiers by viewing stats since Jan 1, 2022. The intention is to use this tiering to prioritize migration and testing issues.

	2022 YTD Views	2022 YTD Views %	Space Count
Tier1 Spaces	102389	79.17%	25
Tier2 Spaces	25830	19.97%	231
Tier3 Spaces	1104	0.85%	1186

With this breakout, the top 25 spaces accounted for 80% of the YTD views, the next 231 spaces accounted for 20%, and the remaining 1186 spaces accounted for <1% of the views.

Here is the list of Tier1, Tier2, and some Tier3 spaces. A space not on this list can be considered Tier3.

	Space	Tier
1	NtechNPS	TIER1
2	CSTIER3	TIER1
3	AN	TIER1
4	TOKB	TIER1
5	PRE	TIER1
6	NAS	TIER1
7	CDN	TIER1
8	GT	TIER1
9	CORE	TIER1
10	MKT	TIER1

Space Tier List

Created by Ed Bukoski
Last updated: Jul 13, 2022 • 1 min read • 5 people viewed

Confluence spaces grouped into Tiers by viewing stats since Jan 1, 2022. The intention is to use this tiering to prioritize migration and testing issues.

	2022 YTD Views	2022 YTD Views %	Space Count
Tier1 Spaces	102389	79.17%	25
Tier2 Spaces	25830	19.97%	231
Tier3 Spaces	1104	0.85%	1186

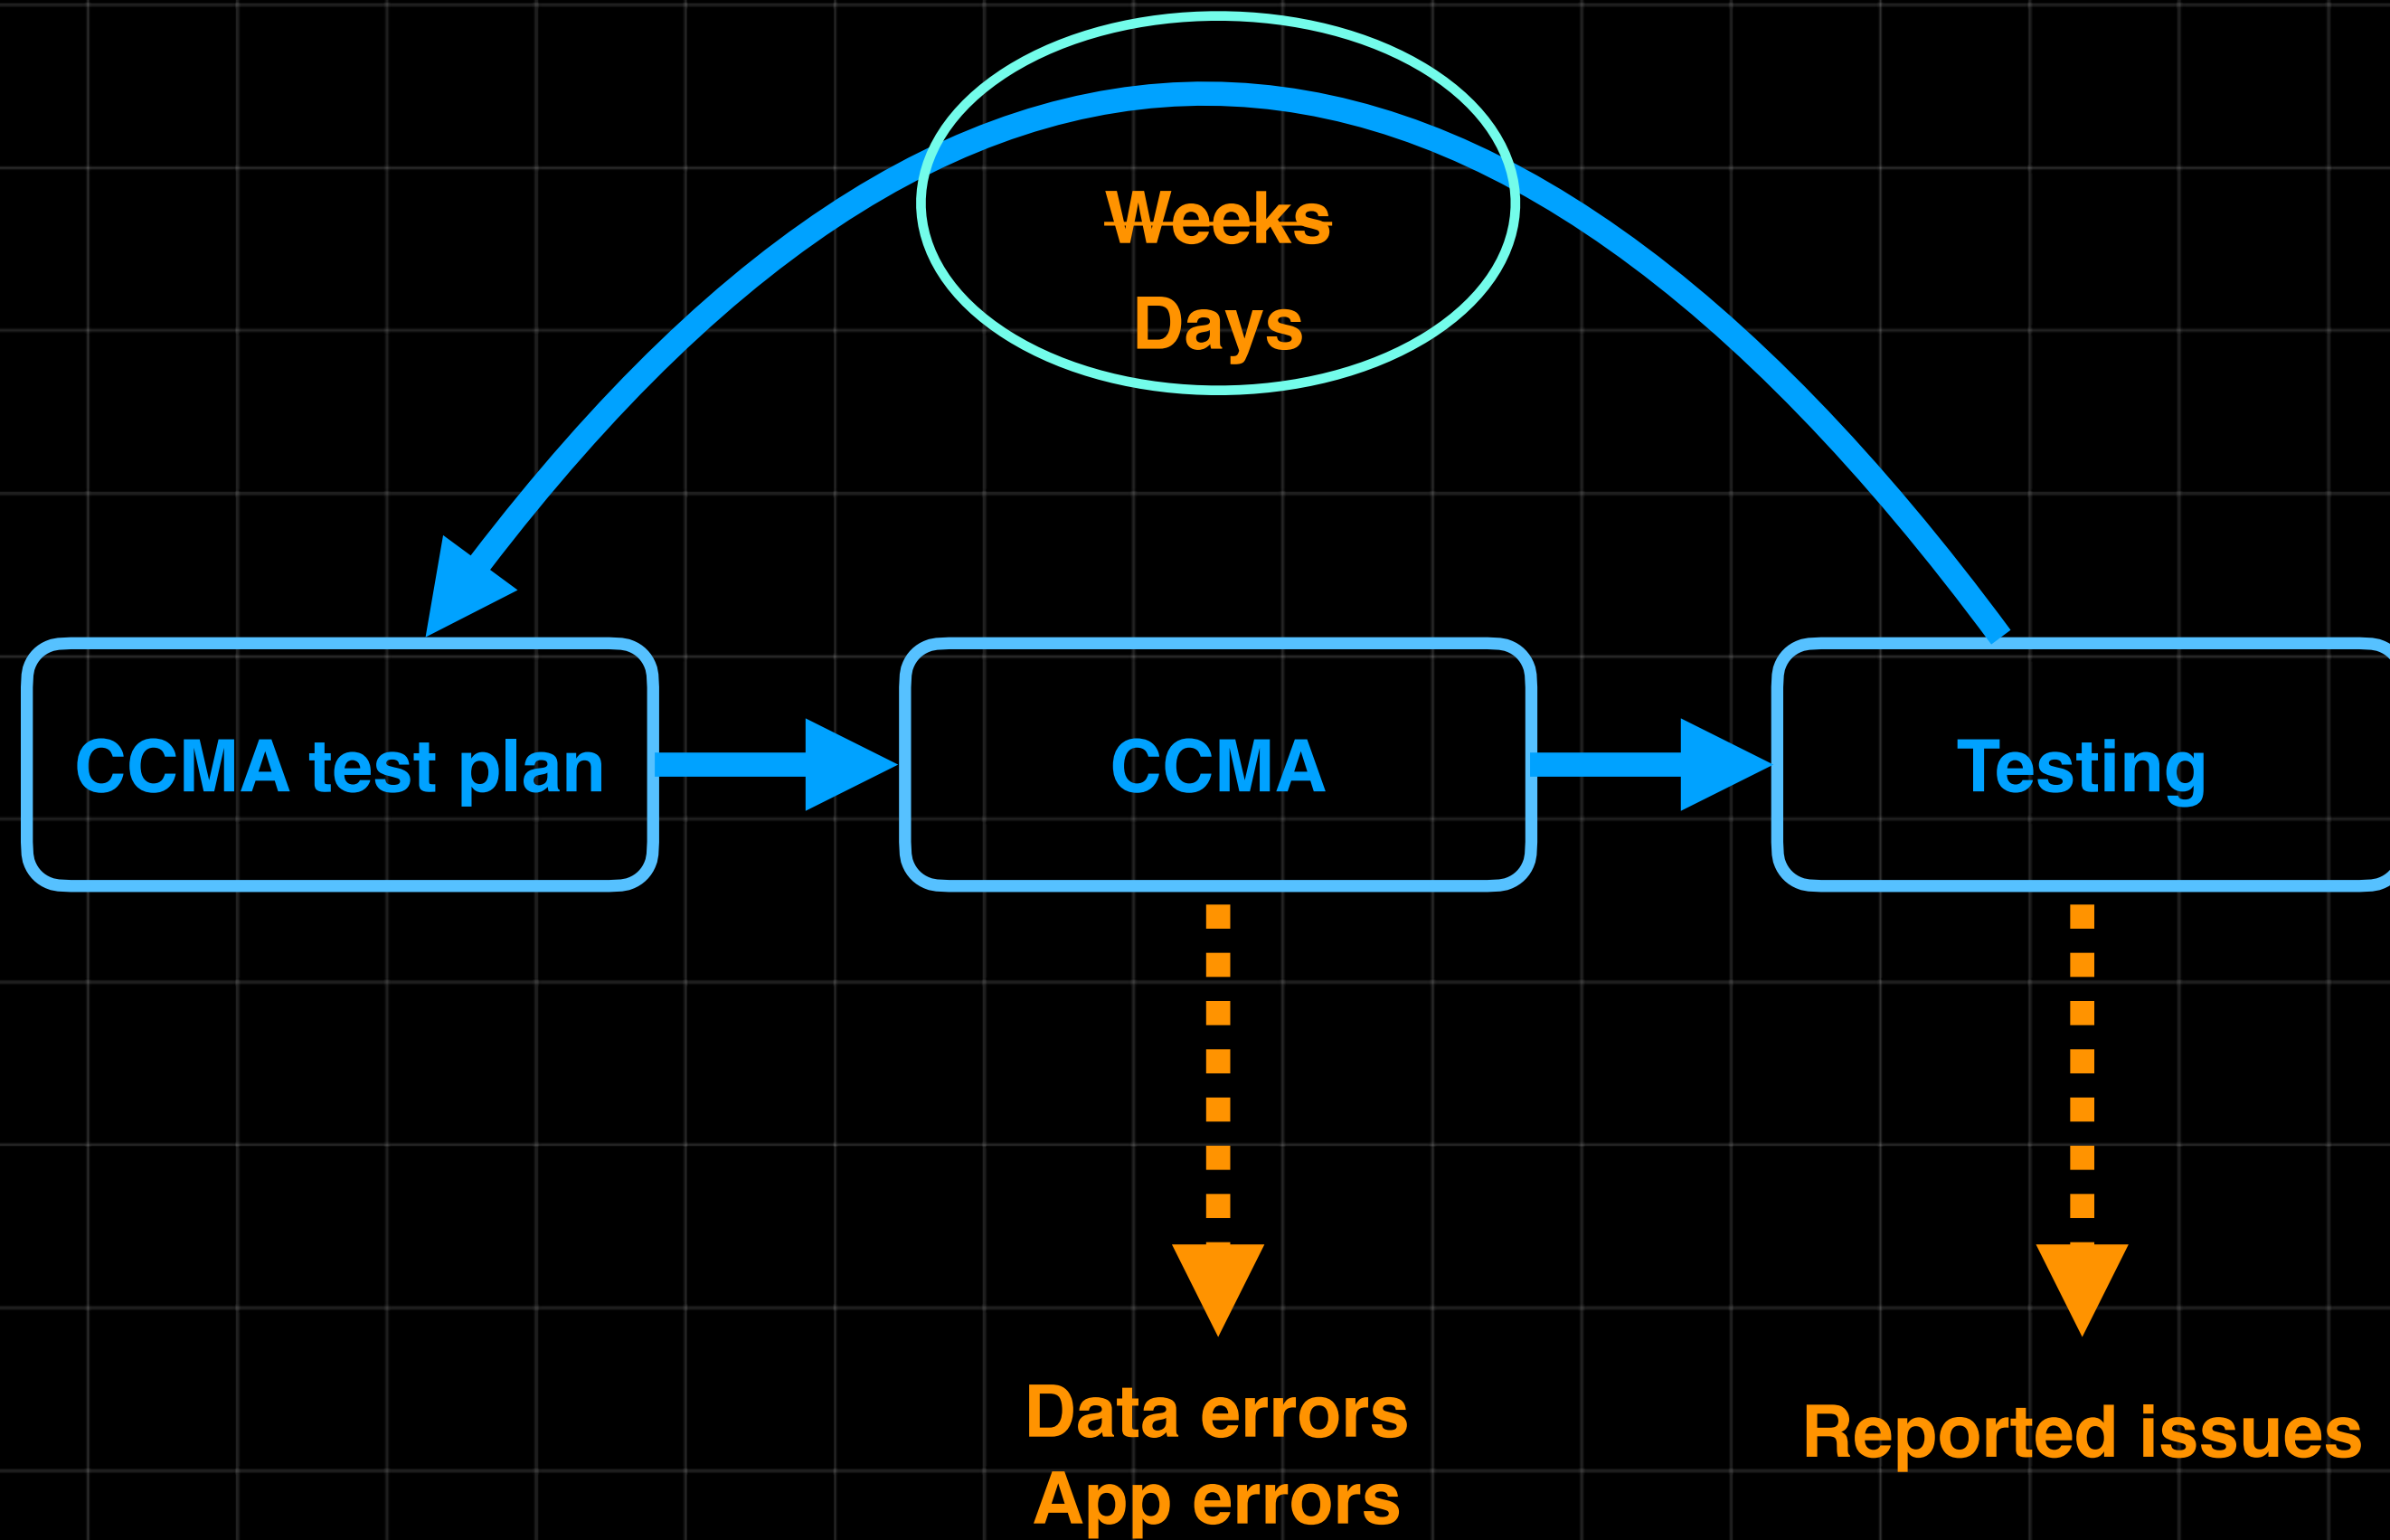

With this breakout, the top 25 spaces accounted for 80% of the YTD views, the next 231 spaces accounted for 20%, and the remaining 1186 spaces accounted for <1% of the views.

Here is the list of Tier1, Tier2, and some Tier3 spaces. A space not on this list can be considered Tier3.

	Space	Tier
1	NtechNPS	TIER1
2	CSTIER3	TIER1
3	AN	TIER1
4	TOKB	TIER1
5	PRE	TIER1
6	NAS	TIER1
7	CDN	TIER1
8	GT	TIER1
9	CORE	TIER1
10	MKT	TIER1

Rohan Dhruva 08:13

I just noticed that one of the links in my bookmarks is not working after the migration. Is that expected?

Amanda Benhamou 12:00
Hey! A couple of questions:
1. Is there a way to rollup a custom fields on jira sub-tasks at the epic level? So for instance if I have a bunch of sub-tasks with a requestor assigned to each and at the epic level I want to see a list of requestors?
2. Can I automatically make my tasks start date the date its status is changed to "In Progress"?
3. How do I add custom fields to the ticket creation screen?

Alisa Peters 13:24
hihi, is this the place where I can request someone be added to jira-users? I have a new hire @chiatt who somehow didn't make it onto that list even though a colleague with the same start date did.

Jira migration

Jira migration

Migration Tool Constellation

	Name	Source	Role	Description
1	Application Tunnels		Networking	Network routes to behind firewall on-prem services.
2	Jira Cloud Migration Assistant		Data Migration	Migrates Jira data and attachments.
3	Jira Mainstreet		Dashboard	Read only website that reports on Jira project migration status, complications, and dependencies.
4	Jira Raygun		Testing	Command line testing and validation tool.
5	Jiraception		Analysis	Command line tool that measures complexity of Jira projects and identifies migration candidates.
6	Spinnaker	 (existing)	Workflow	Standalone website that coordinates the execution of migration workflows and pipelines across different tools and services.
7	Alluvium	 (existing)	Networking	Standalone redirection service that will send traffic to cloud after the migration.
8	Jira Cloud Redirector Plugin		Networking	Jira redirection plugin that will send traffic to cloud during the migration.
9	Atlassian API Proxy		API Auth and Identity	Standalone service that will provide authentication and identity services to Netflix Jira API users.
10	Jiranator		Data Storage	Standalone service to store migration metadata such as project tiers, project migration status, and complications.
