

How-to guide

Humanizing business in the age of digital revolution

In the age of digital revolution, cutting-edge technology is foundational for operational excellence and an enhanced client experience. But to thrive and be resilient in a dynamic world of constant disruption, the businesses understanding the ‘survival of the fittest’ will be those that are also human-centric.

While digital tools improve processes and workflows, they also deeply alter the meaning of work, people’s expectations, and the workplace – this is where Valiantys leads the way in continued business transformations.

Bright businesses have big ambitions generating complex challenges that require innovative solutions – covering strategy through to execution. Some burning questions from leaders and their teams are:

How can we better connect our organization across functions, and align business strategies to execution using Atlassian tools?

What are the best approaches to accelerate team performance?

How can we deliver an impactful client experience?

What are some leading practices for deploying an agile transformation or cloud migration and consolidation strategy?

How can data-driven insights on the workforce drive value generation?

How can we weave team efficiency, well-being, and a sense of purpose?

Who can we rely on to get the best out of our Atlassian investments?

65 of the Global Fortune 500 trust us

Our relationship-centric approach means we work alongside your teams to meet your business needs and improve your efficiency with a strong focus on time-to-value. Valiantys has hundreds of customers in 130+ countries within a large range of verticals: insurance, banks, software, media, etc.

Evolve teamwork from complexity to efficiency – how to get started?

Harvesting the promise of your capabilities by combining practices, mindset, behavior, and Atlassian tools to drive value requires an integrated approach. But where do you begin?

Recognize your people's needs

Demands of the evolving workforce are growing dramatically. Stay in tune with how teams will operate in a blend of physical and virtual environments. Understand what people across your enterprise will need to accomplish meaningful work.

Unlock high-velocity teams

Empower your teams to deliver value faster, bring greater visibility across your enterprise, and accelerate the work between development, operations and other teams – using Atlassian tools.

Train and coach your teams

The flexibility and fast evolution of Atlassian tools make them the ideal companion for performing teams, when they know how to use them and leverage the new capabilities added on a frequent basis. Proper expert training and coaching ensures that teams extract the maximum value from their tools.

Start with value, then grow to business agility

High performing teams are the functional units of your organization. They all should understand the value they deliver to the organization, their purpose, and how they connect with adjacent teams in their value streams - while being supported by the proper tools and processes, enabling shared context and outcomes.

Leverage Atlassian Cloud

The scalability of cloud and SaaS solutions has already brought many organizations flexibility and performance of critical applications, reductions in operational spend and significant improvements in workforce insights, productivity, and employee experience.

Sustain and extend your organizational performance with 24/7 support

Performing teams cannot be slowed down by not getting the support that they need when they need it. Access to 24/7 technical, functional and user support is a pre-requisite for all organizations.

About Valiantys

Valiantys is the leading global consulting and services firm dedicated to Atlassian. We accelerate business transformation by digitizing processes and modernizing teamwork, using the best Agile methods and tools. Our Atlassian technical expertise is unparalleled, and we support our customers across the entire spectrum of their projects on those platforms. Because teamwork requires more than just tools, we help them bridge the gap between their applications and strategic practices such as SAFe and ITIL. Over the last 15 years, we have helped in excess of 5,000 customers to achieve their desired business outcomes at a reduced time to value, through improved team collaboration. Find out how we can help you get the results you need at valiantys.com
