Reports and Charts for Confluence

Platinum Marketplace Partner

CLOUD FORTIFIED

Better Confluence Overview and Content Management

Available where you are

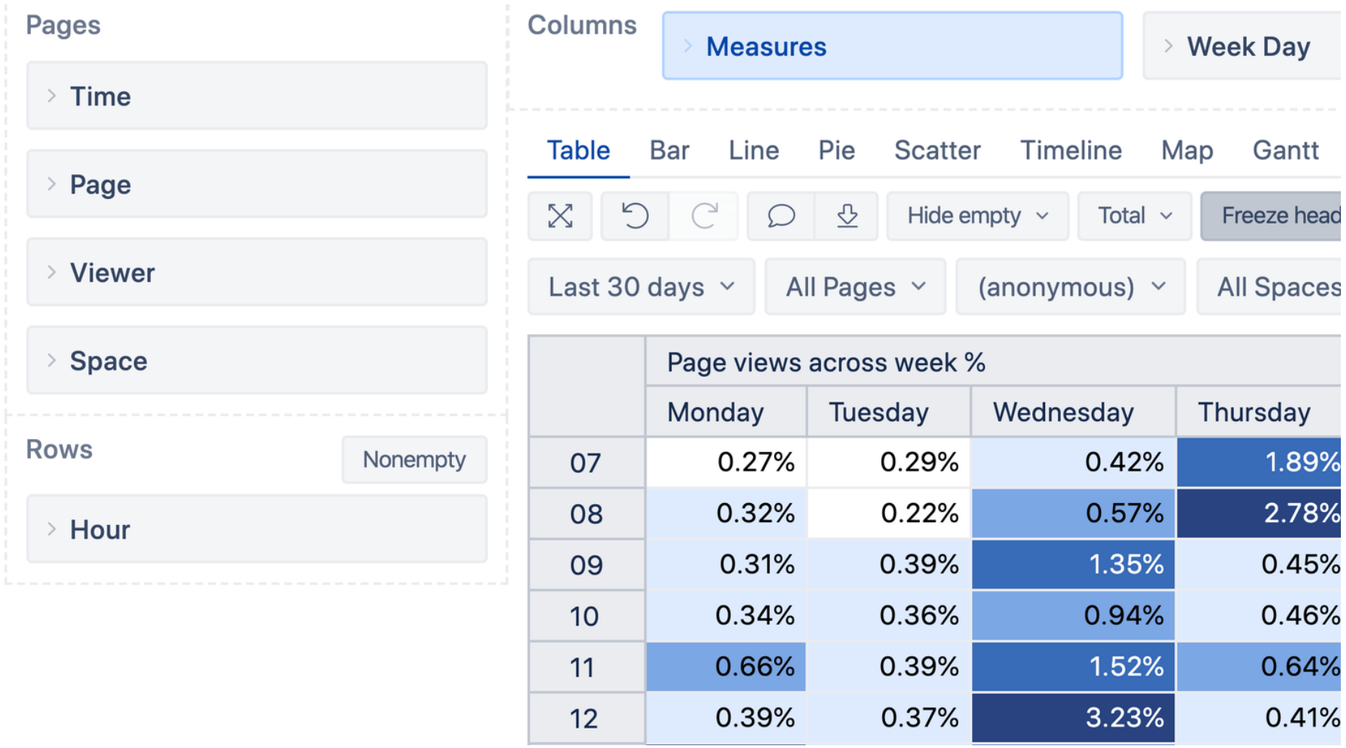
CLOUD

DATA CENTER

- → Improve content discovery and accessibility.
- → Analyze Confluence data like pages created, authors, updates, and versions.
- → Identify most and least popular Confluence spaces, pages, or labels by views, likes or unique users.
- → Discover top search queries and the average number of suggested topics.
- → Analyze unique users and/or views over time, week-day, or hour of the day.
- → Review of newly created pages and updates by page type.
- → Perform page tree analysis with Top Page and Sub Pages.
- → Analyze data from external sources like SQL, REST API, Excel and CSV files.

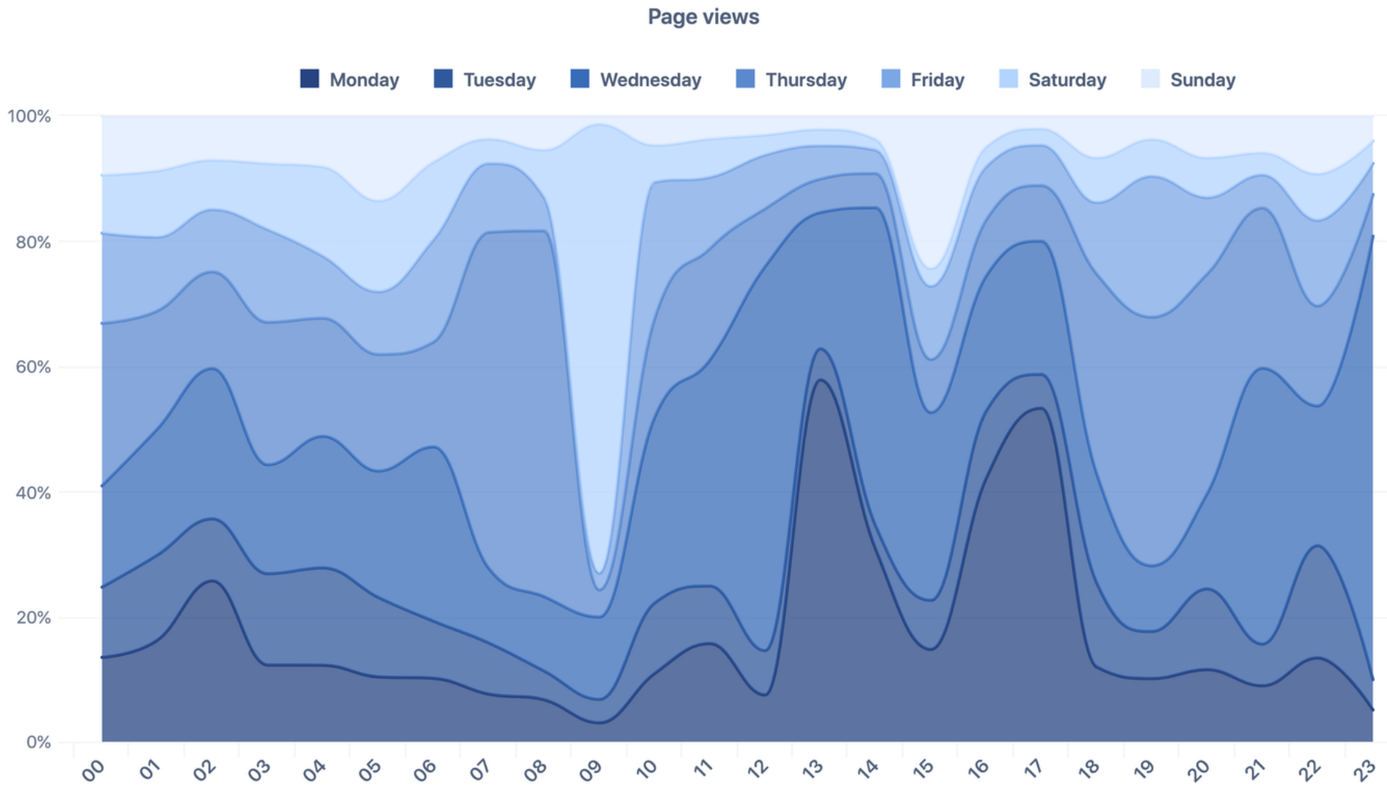
Custom Reports, Charts, and Dashboards

Analyze the performance of spaces, pages, authors, and viewers. Track your KPIs, identify empty, outdated, or dormant pages, and create new content strategically. The drag-and-drop custom report builder allows you to analyze your content at space or page level with just a few clicks.



Interactive Data Analysis and Visualization

Explore and analyze your data right from the report. Drill-into details or across data dimensions with an instant feedback. Improve Confluence content management—find actionable insights, trends, and opportunities to make smart and datadriven decisions.



Powerful Calculations for Advanced Users

Go beyond basic Confluence measures and create your own powerful calculations. From page-view distributions and pagesearch coverage reports, to complex engagement and impact ratios – there's no limit what you can do.

Define calculated member formula

[Measures].[Page last view date] =

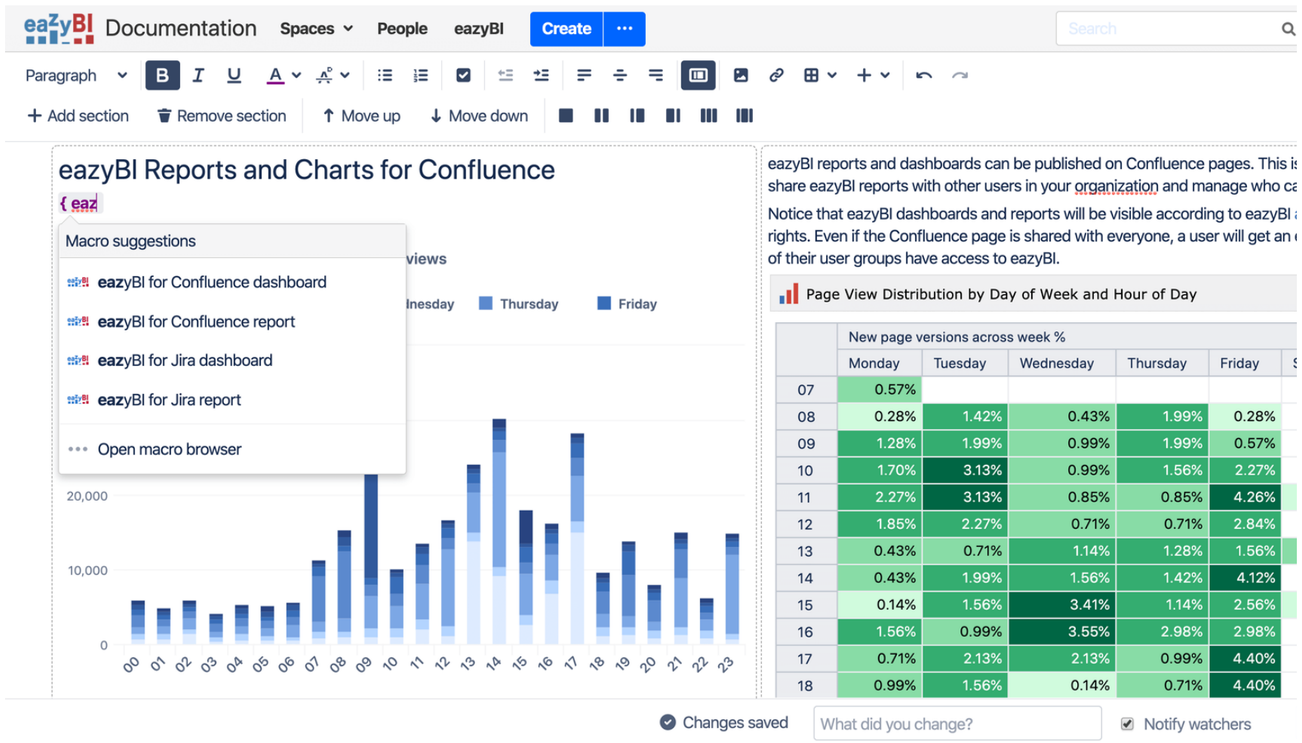
```
1  CASE WHEN NOT IsEmpty([Measures].[Page views])
2  THEN
3  Order(
4    Filter([Time].[Day].Members,
5      [Measures].[Pa] > 0),
6    [Time].Current
7    BDESC
8  ).Item(0).Name
9  ELSE
10 "No data on view
11 END
```

Pages created
Page versions created
Pages updated
Page likes
Page views
Pages viewed
Page views across week %
Page last view date

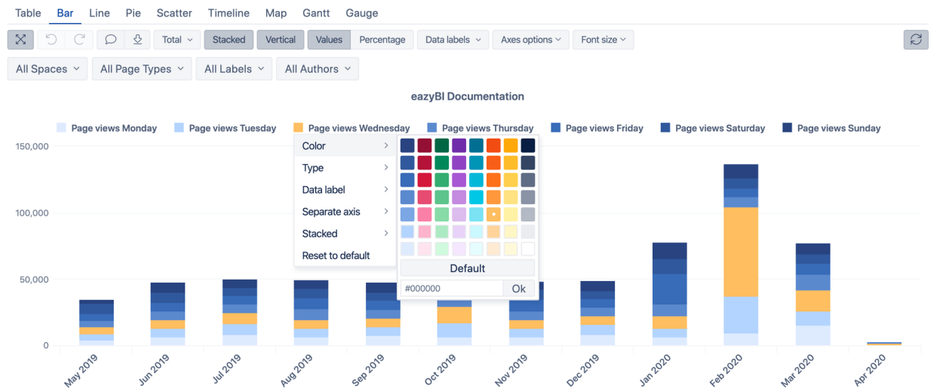
Formatting default

Many Data Sources

Include your Jira or Confluence reports (made with eazyBI Reports and Charts app) on Confluence page or space by using built-in macros. The report stays interactive and adjustable on your Confluence page.



Page view distribution by day



New page version weekly heat map by author

	New page versions across week %						
	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
07	0.57%						
08	0.28%	1.42%	0.43%	1.99%	0.28%		
09	1.28%	1.99%	0.99%	1.99%	0.57%		
10	1.70%	3.13%	0.99%	1.56%	2.27%		
11	2.27%	3.13%	0.85%	0.85%	4.26%	0.14%	
12	1.85%	2.27%	0.71%	0.71%	2.84%		
13	0.43%	0.71%	1.14%	1.28%	1.56%	0.43%	
14	0.43%	1.99%	1.56%	1.42%	4.12%		
15	0.14%	1.56%	3.41%	1.14%	2.56%	0.28%	
16	1.56%	0.99%	3.55%	2.98%	2.98%		
17	0.71%	2.13%	2.13%	0.99%	4.40%
