Our Mission

To help teams share their knowledge freely, simply, and effectively to better educate and enable their customers.

Our Customers

At K15t, our products enable teams to manage knowledge and share information both within their organization and beyond.

Publish a Beautiful Help Center

Collaborate with your entire team on your help documentation, then publish it as a branded help center so your users can self-serve the help they need.

Manage Product Documentation

Manage the lifecycle of your documentation in one place and create user guides, how-to articles, manuals, release notes, and more.

Create a Knowledge Base

Give your team the knowledge hub they need to do their job right. Scroll offers a secure collaboration platform that keeps information flowing across the organization.

Built on Confluence: Your Team Workspace

Atlassian Confluence is used by every type of team to manage and track all kinds of work: product ideas, marketing campaigns, customer interviews – you name it.

Create as a Team, Enable Your Customers

Enable your customers with the information they need anytime, anywhere. Publish your product documentation as an interactive, searchable, and beautifully customized help center.
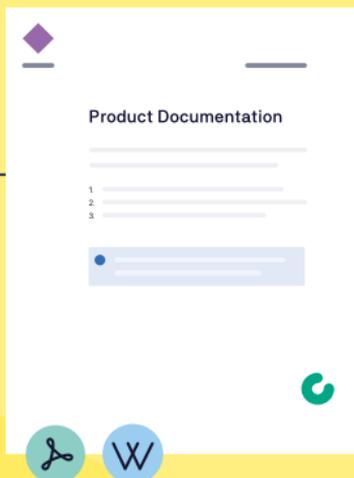

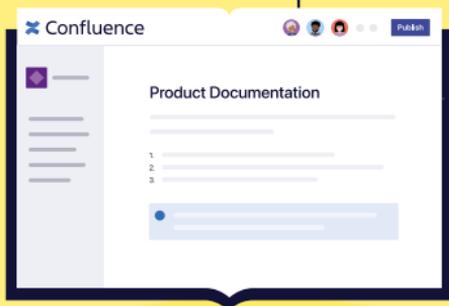

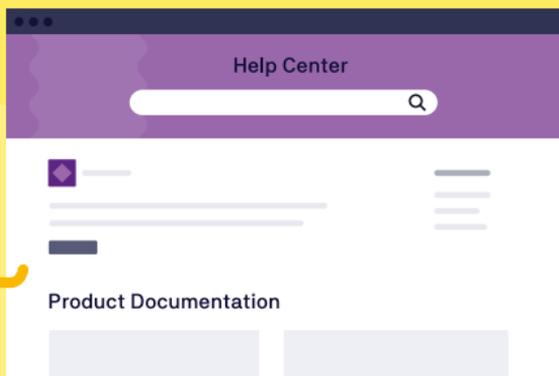

Single source for all your product information

Time to give your knowledge a real home. Create and collaborate on content in one place, publish to multiple formats as needed.

Deliver a branded experience – both online and offline

Publish documentation in multiple formats and tailor the experience to your liking with a custom domain, layout, logos, and more.

Connect and integrate

Connect support systems, analytics tools, and even embed content directly in your product. Enhance your content with insightful analytics.

Access publicly or privately

Control exactly which content is published and who can view it. Make your help center available to the public or require a login to access information.

Publish PDF and Word documents

Turn your content into beautiful PDF and Word documents with rich output functionality and full control over styling.

No coding necessary

Use the pre-built theme or the WYSIWYG template editors to customize everything: headers, footers, colors, navigation, and more.

Scroll Is Built on Confluence, for Confluence

Confluence is your team's home for knowledge and documentation. Over 60,000 organizations use Confluence to create a collaborative workspace where the whole team can contribute their knowledge. Its flexible editor and powerful collaboration features will help you put your best content forward.

Versions
Save, control, and compare versions of your documentation over time.

Translations
Translate and manage your content in multiple languages – all from a single source.

Variants
Manage conditional content and publish variants of your documentation based on audience needs.

Content Reuse
Author content once, use it everywhere. Avoid the headache of duplicated or out-of-sync content.

Over 8,000 organizations around the world use K15t's products to manage their team's knowledge and share information to better enable their customers, partners, and employees.
