

HOW WE RUN CIRCLES AROUND SCRIPTRUNNER

THEIR UPGRADES ARE OUR STANDARDS

We created Power Scripts™ for Jira to simplify your customization needs, and counteract price gouging on overly-complicated products like ScriptRunner. Power Scripts™ for Jira is easy to use, saves time, and inexpensive.

Powered by our own scripting language, SIL® Engine, you don't need to be a java programmer... or even have one. The amount of time you need to spend coding with ScriptRunner to virtually do the same things are eliminating by **90%** with Power Scripts™ for Jira. **Again, 90% of your time saved at a fraction of the cost.**

BUT WAIT... If you depend on Groovy, we've created the **SIL® Groovy Connector** that's compliant for groovy scripts to be run in the SIL®vv Manager.

HOW WE COMPARE

FEATURE	POWER SCRIPTS™ FOR JIRA	SCRIPTRUNNER
PRICE <small>(Data Center, 2000 users)</small>	\$3,600	\$4,500
TARGET USER	ADMINS / POWER USERS	ADMINS
LANGUAGE	SIL® & GROOVY	GROOVY
